1. Reporting entity

CWC Energy Services Corp. ("CWC" or the "Company") is incorporated under the *Business Corporations Act* (Alberta). The address of the Company's head office is Suite 610, 205 – 5th Avenue SW, Calgary, Alberta, Canada. The Company is an oilfield services company providing drilling and production services to oil and gas exploration and development companies throughout the Western Canadian Sedimentary Basin ("WCSB"). The Company's common stock is listed and traded on the TSX Venture Exchange under the symbol CWC. Additional information regarding CWC's business is available in CWC's most recent Annual Information Form available on SEDAR at www.sedar.com, on the Company's website www.cwcenergyservices.com, or by contacting the Company at the address noted above.

2. Basis of presentation

(a) Statement of compliance

These condensed interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting* and do not include all the information required for full annual financial statements.

These condensed interim financial statements were approved by the Board of Directors on November 3, 2016.

(b) Use of estimates and judgments

The preparation of the condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended December 31, 2015.

(c) Comparative figures

Certain comparative amounts have been reclassified to conform to the current period's presentation.

3. Significant accounting policies

The accounting policies applied by the Company in these interim financial statements are the same as those applied by the Company in its financial statements as at and for the year ended December 31, 2015. These unaudited interim financial statements should be read in conjunction with the audited financial statements and notes thereto for the year ended December 31, 2015 as filed on SEDAR.

4. Seasonality of operations

The Company's operations are located in Western Canada. The ability to move heavy equipment safely and efficiently in Western Canadian oil and natural gas fields is dependent on weather conditions. Activity levels during the first quarter are typically the most robust as the frost creates a stable ground mass that allows for easy access to well sites and easier drilling and service rig movement. The second quarter is traditionally the slowest due to road bans during spring break-up. When winter's frost leaves the ground, it renders many secondary roads incapable of supporting the weight of heavy equipment until they have thoroughly dried out. Road bans during this time restrict service and support equipment access to well sites. The third quarter has more activity as the summer months are typically drier than the second quarter. The fourth quarter is again quite active as winter temperatures freeze the ground once more maximizing site access. However, there may be temporary halts to operations in extreme cold weather when the temperature falls below -35C.

At September 30, 2016, the Company has considered indicators of impairment for each of its cash generating units and based on that review no impairment tests were performed.

6. Loans and borrowings

The following table provides information with respect to amounts included in the statement of financial position related to loans and borrowings:

	September 30, 2016	December 31, 2015
Current liabilities:		
Current portion of finance lease liabilities	$ 191	$ 205
	$ 191	$ 205

Financing fees	(537)	(501)
	$ 33,822	$ 52,036
Total loans and borrowings	$ 34,013	$ 52,241

The Company has credit facilities with a syndicate of four Canadian financial institutions (the "Credit Facility"). The Credit Facility provides the Company with a $65 million extendible revolving term facility (the "Bank Loan") and other credit instruments. The Bank Loan is for a committed term until July 31, 2018 (the "Maturity Date"). No principal payments are required under the Bank Loan until the Maturity Date, at which time any amounts outstanding are due and payable. The Company may, on an annual basis, request the Maturity Date be extended for a period not to exceed three years from the date of the request. If a request for an extension is not approved by the banking syndicate, the Maturity Date will remain unchanged.

The Bank Loan bears interest based on a sliding scale pricing grid tied to the Company's trailing Consolidated Debt to Consolidated EBITDA [(1)] ratio from a minimum of the bank's prime rate plus 0.75% to a maximum of the bank's prime rate plus 3.75% or from a minimum of the bankers acceptances rate plus a stamping fee of 1.75% to a maximum of the bankers acceptances rate plus a stamping fee of 4.75%. Standby fees under the Bank Loan range between 0.39% and 1.07%. Interest and fees under the Bank Loan is payable monthly. The Company has the option to borrow funds denominated in either Canadian or United States dollars under the Credit Facility. Borrowings under the Bank Loan are limited to an aggregate of 75% of accounts receivable outstanding less than 90 days plus 60% of the net book value of property and equipment less certain priority payables. As at September 30, 2016 $65 million was available for immediate borrowing under the $65 million Bank Loan facility and $41.5 million was outstanding (December 31, 2015: $52.4 million). The Bank Loan has an accordion feature which provides the Company with an ability to increase the maximum borrowings to up to $125 million, subject to the approval of the lenders. The Bank Loan is secured by a security agreement covering all of the assets of the Company and a first charge Security Interest covering all assets of the Company. Effective September 30, 2016 the applicable rates under the Bank Loan are: bank prime rate plus 2.25%, banker's acceptances rate plus a stamping fee of 3.25%, and standby fee rate of 0.73%.

In April 2016, the Company reached an agreement with its banking syndicate to, among other things, extend the Maturity Date of the Credit Facility to July 31, 2018 from June 21, 2017, amend the Consolidated EBITDA definition and amend the maximum Consolidated Debt to Consolidated EBITDA ratio under the Credit Facility to 5.5:1 for June 30, 2016 and September 30, 2016, 5.25:1 for December 31, 2016 and March 31, 2017, further decreasing to 4.75:1 for June 30, 2017, 4.5:1 at September 30, 2017, 4.0:1 for December 31, 2017 and decreasing to 3.5:1 for March 31, 2018 and thereafter. The Company has also reached an agreement to amend the calculation of Consolidated EBITDA to include a new equity cure provision which allows the Company to include proceeds of equity offerings in the calculation of Consolidated EBITDA, subject to specific conditions.

Under the terms of the Credit Facility, the Company is required to comply with the following financial covenants:

	Covenant limits	Actual September 30, 2016
Consolidated Debt[2] to Consolidated EBITDA[1]	5.5:1.00 or less	2.84:1.00
Consolidated Debt[2] to Capitalization[3]	0.50:1.00 or less	0.21:1.00
Consolidated Adjusted Cash Flow[4] to Consolidated Finance Obligations[5]	1.15:1.00 or more	3.09:1.00

[1] Consolidated EBITDA is calculated as net income plus finance costs, plus current and deferred income taxes, plus depreciation, plus stock based compensation, plus any non recurring losses or impairment losses, or permitted severance costs, minus any non recurring gain, plus any expenses related to corporate or business acquisitions with all amounts being for the twelve month period ended the calculation date. EBITDA is adjusted to reflect the inclusion of material acquisitions or material dispositions on a pro forma basis for the twelve month period ended the calculation date. Consolidated EBITDA is increased if debt repayments from the proceeds of equity issuance are used to repay the syndicated facility and designated by the Company as an Equity Cure amount.
[2] Consolidated Debt is calculated as total loans and borrowings as shown in the schedule above adjusted to remove any financing fees included.
[3] Capitalization is calculated as Consolidated Debt plus Shareholders' Equity as at the calculation date.
[4] Consolidated Adjusted Cash Flow is calculated as Consolidated EBITDA minus amounts paid for transaction costs, dividends or share repurchases in the twelve month period ended the calculation date. The Calculation of Adjusted Cash Flow excludes Consolidated EBITDA resulting from an Equity Cure.
[5] Consolidated Finance Obligations is calculated as finance costs plus scheduled principal payments on debt including scheduled principal payments under finance leases minus accretion of finance fees included in finance costs for the twelve month period ended the calculation date.

On June 2, 2016, the Company received gross proceeds of $14,632 from a rights offering of common shares (see Note 7), the funds were placed into a segregated bank account. On July 9, 2016 $7,000 was paid on the outstanding loan. At September 30, 2016 the remaining $7,632 plus earned interest has been offset against long term debt as the Company has the current legal right to offset and intends to settle on a net basis or settle the asset and liability simultaneously.

Obligations under finance leases are primarily for leased automobiles with an expected term of three years and a one year minimum term. Interest rates on finance leases are specific to each leased asset, are fixed for the lease term and vary between 4.4% and 5.2% per annum.

Financing fees consist of commitment fees and legal expenses relating to the Credit Facility and are being amortized using the effective interest rate method over the term of the Credit Facility. Financing fees of $73 and $240 were amortized and included in finance costs during the three and nine months ended September 30, 2016 respectively (year ended December 31, 2015: $238).

7. Share capital

(a) Rights offering

On June 2, 2016, CWC closed a rights offering for aggregate gross proceeds of $14,632 ($14,543 after deductions of $123 in share issue costs plus deferred income taxes of $33). Under the fully subscribed offering, 97,546,002 common shares were issued to shareholders who exercised their rights. Each eligible shareholder received one right for every three common shares held and each right was exercisable for one common share at a price of $0.15 per share.

(b) Stock options

The following table summarizes changes in the number of stock options outstanding:

	Number of options	**Weighted average exercise price**
Balance at December 31, 2015	14,400,000	$ 0.43
Granted	**5,700,000**	**0.18**
Forfeited	**(2,900,000)**	**0.57**
Balance at September 30, 2016	**17,200,000**	**$ 0.32**

For the three months ended September 30, 2016, stock-based compensation expense relating to stock options totaled $87 (three months ended September 30, 2015: $84). For the nine months ended September 30, 2016, stock-based compensation expense relating to stock options totaled $243 (nine months ended September 30, 2015: $355).

(c) Restricted share unit plan ("RSUs")

The following table summarizes information about RSUs outstanding as at September 30, 2016:

Issue date fair value	**Number of RSUs outstanding**	**Weighted average remaining life (years) contractual**	**Weighted average exercise price ($)**	**Number of RSUs exercisable**
$0.09 - $1.04	**2,073,334**	**1.75**	**n/a**	**153,334**

For the three months ended September 30, 2016, stock-based compensation expense relating to RSUs totaled $45 (September 30, 2015: $140). For the nine months ended September 30, 2016 stock-based compensation expense relating to RSUs totaled $108 (September 30, 2015: $442).

For the nine months ended September 30, 2016, 300,000 RSUs were issued (September 30, 2015: 75,000), 145,000 RSUs were exercised (September 30, 2015: 120,000), and 371,667 RSUs were forfeited, (September 30, 2015: 75,000).

(d) Loss per share

The following table reconciles the common shares used in computing earnings per share for the periods noted:

	For the three months ended September 30,		**For the nine months ended September 30,**	
	2016	2015	**2016**	2015
Weighted average common shares outstanding – basic	**390,319,009**	286,626,800	**336,130,388**	283,435,832
Effect of dilutive share-based compensation plans	**-**	-	**-**	-
Weighted average common shares outstanding – basic and diluted	**390,319,009**	286,626,800	**336,130,388**	283,435,832

Stated in thousands of Canadian dollars except share and per share amounts

Outstanding stock options and RSUs are currently the only instruments which could potentially dilute earnings per share. For the three and nine months ended September 30, 2016, all stock options and RSUs were not included in the computation of earnings per common share because to do so would be anti-dilutive.

9. Operating segments

The Company operates in the Western Canadian oilfield service industry through its Contract Drilling and Production Services segments. The Contract Drilling segment provides drilling rigs and related ancillary equipment to oil and gas exploration and production companies. The Production Services segment provides well services to oil and gas exploration and production companies through the use of service rigs and coil tubing units.

Management uses net income before depreciation and income taxes ("segment profit") in management reports reviewed by key management personnel and the board of directors to measure performance at a segment basis. Segment profit is used to measure performance as management believes this is the most relevant measure in evaluating the results of our segments relative to each other and other entities that operate within the respective industries.

The Corporate segment captures general and administrative expenses associated with supporting each of the reporting segments operations, plus costs associated with being a public company. Also included in the Corporate segment is interest expense for debt servicing, income tax expense and other amounts not directly related to the two primary segments.

The amounts related to each industry segment are as follows:
